The better-behaved prisoners are used in the outside work; the conspiracy was hatched among the men in the inside gang. The convicts chose the most favorable moment of the day, while many of the guards, acting as foremen of construction of the new cellhouse, were unarmed.

Mr. Payne canvassed all sources of internal revenue, and discussed the extent to which reductions might safely be made.

It practically has been determined by Mr. Payne, after consultation with the President and with many of Payne's associates on the Ways and Means Committee, to prepare a bill abolishing all special taxes imposed on account of the Spanish-American War, and reducing all those increased

ONE MILLION SAMPLES  
Of the Greatest Kidney Medicine Ever Discovered, Warner's Safe Cure.  
SENT ABSOLUTELY FREE  
Postpaid, to sufferers from kidney, liver, bladder and blood troubles who will write the Warner's Safe Cure Co. of Rochester, N. Y., and mention having read this advertisement in this paper. Thousands of people have kidney disease and do not know it. Our doctors have met with many cases in their experience where kidneys had become so impregnated with the disease that they would be called incurable by most doctors, yet the patient was not aware that his kidneys were diseased. Test for yourself; it costs nothing, and may be the means of saving your life.

TRY THIS SIMPLE HOME TEST:  
When you rise in the morning put some urine in a glass or bottle, let it stand for 24 hours; if there is a reddish sediment in the bottom of the glass, or if the urine is cloudy or milky, or if you see particles of germs floating about in it, your kidneys are diseased and you should lose no time, but get a bottle of Warner's Safe Cure, as it is dangerous to neglect your kidneys for even one day. A free trial bottle has been known to cure many cases that were discovered by the simple home test mentioned above.

The medical department of Warner's Safe Cure Co. is in charge of the most learned specialists of kidney disease the world has ever known. These doctors, regular star doctors, and send a medical booklet containing symptoms and treatment of each form of the disease and samples of thousands of testimonials received from patients who have been cured of all forms of kidney disease. All letters answered by regular practicing physicians and treated strictly confidentially.

Please bear in mind this liberal offer to send a free trial bottle of Warner's Safe Cure to anyone who will write to Warner Safe Cure Co., Rochester, N. Y., and mention this paper.  
Bright's disease, liver complaint, pains in the back, rheumatism, rheumatic gout, bladder trouble, dropsy, eczema, blood disease, too frequent desire to urinate and painful passing of urine, all caused by diseased kidneys, and can be speedily cured by Warner's Safe Cure, which has been prescribed by leading doctors for 25 years.

You can get Warner's Safe Cure at any drug store. Regular size \$1.00 a bottle. If your druggist does not have it, write Warner Safe Cure Company, Rochester, N. Y. Ask for Warner's Safe Cure. It is purely vegetable and contains no harmful drugs. Take no other.

## FIT OF RAGE LED TO DEATH.

**Li Hung Chang Had a  
Row With Lessar.**

**Yuan Shi Kai Succeeds  
the Viceroy.**

**Newspaper Comments on the  
Dead Statesman—Inter-  
esting Anecdotes.**

PEKING, Nov. 8.—[By Asiatic Cable.] A violent dispute with Paul Lessar, Russian Minister in China, over the Manchurian treaty, appears to have been the immediate cause of the death of Li Hung Chang.

The diplomatic events preceding this tragic climax have enabled Japan, for a moment, to frustrate the designs of Russia. A fortnight ago the Japanese legation secured a reliable outline of the terms of the treaty and thereupon demanded that the Chinese plenipotentiaries officially state before them the text, basing this demand upon the allegation that Japanese interests were involved in any change of the status of Manchuria.

The Chinese plenipotentiaries refused to comply with the demand. Thereupon the Japanese government, from Tokyo, communicated with the southern viceroys and induced them to use their influence with the Emperor Dowager against the treaty. In the meantime the Emperor Dowager instructed Li Hung Chang to communicate the treaty, after certain modifications, to the ministers of the powers, and if they did not object, to sign the same.

LESSAR OBJECTED.  
Li Hung Chang visited Lessar and explained to him the instructions. The Russian Minister strongly objected to revealing the text of the treaty to the ministry of the other powers, and a stormy interview ensued. Li Hung Chang went home in a violent passion and a hemorrhage of the nose, which he attributed to the overexertion of a weakened system.

While Chinese things were happening in Peking the southern viceroys sent to the Emperor Dowager a memorial in the telegraphic form, countermanding the order to sign. This instruction came after Li Hung Chang had become unconscious. When Lessar endeavored to have Li Hung Chang's seal affixed to the treaty, Chou Yu, Provincial Treasurer, had arrived at Pao Tung Fu, and taken charge of the seal, as the temporary successor of Earl Li.

SIGNS AND SHOW OF GRIEF.  
The flag of the United States legation was the only one hoisted in Peking today. The mourners and the family of Li Hung Chang will burn paper offerings tomorrow in accordance with custom, for the use of the spirit in the other world. The street is hung with mourning emblems. All the attendants at the Yamen are in black attire, and many of them are dressed in black. Today musicians beat drums about the house.

Li Hung Chang's estate will remain intact for the use of his eldest son, who will provide for the other members of his family.

Yuan Shi Kai, successor in the Governorship of the province of Shantung, is an unknown man, who has been holding an unimportant position as grain commissioner in one of the inland towns of the province. He will be watched with the closest solicitude as the peace of China will largely depend upon his course. The name of the new Governor of the province of Shantung is Chang Yen Chun, and the name of the town where he has been grain commissioner is Tsing Kiang Fu.

Wang Wen Shih, who is 74 years old and deaf, was never rated as a statesman or a diplomatist. His appointment to the position of viceroy was reached through chance.

REACH PRINCE CHING.  
Telegraphic communication with Prince Ching was obtained today. He is hastening to meet the court. After consultation he will return with Wang Wen Shih, who is accompanying the court, which is to make five days' journey from Kai Fong Fu.

Emperor Kwang Hsu, report says, is asserting himself and leading the natives against the Emperor. Native papers declare that he purposes to inaugurate a revival of the military spirit, assuming the honorary position of commander-in-chief, and wearing a uniform. They also assert that he will compel the rebels to follow his example, to take military positions and to study military science.

A private letter from a European source in Tai Yuen Fu, says that two British officers, with a party of Indian soldiers, encountered the imperial forces, were surrounded, and, for unknown motives, were detained as prisoners by the Emperor's bodyguard for a few days. Apparently this was an exploring party, commanded by Major Manifold and Capt. Hunter, who had been operating in that region for some time.

APPOINTED VICEROY.  
[BY THE NEW ASSOCIATED PRESS.—A.M.] PEKING, Nov. 8.—[By Asiatic Cable.] The special edict has arrived here appointing Yuan Shi Kai (Governor of Shantung province) to be Governor of the province of Chi Li, and appointing Wang Shi, president of the Foreign Office and a member of the Cabinet, to succeed Li Hung Chang, as plenipotentiary. They are both ordered to come to Peking forthwith. Another edict creates Li Hung Chang a marquis, and bestows on him the new name of Li Wen Chang, by which he will be known in history.

SKETCH OF YUAN SHI KAI.  
[BY THE NEW ASSOCIATED PRESS.—A.M.] WASHINGTON, Nov. 8.—[By Asiatic Cable.] Yuan Shi Kai is the best appointment that could have been made from all China, according to Mr. Rockhill, the special commissioner of the United States to China. He is about 45 years old, and came originally from the province of Hunan, where he began his public career as a military officer. He was made minister in Korea for many years, ably defended Chinese interests in that troubled island. As Governor of Shantung, he showed surprising ability in tranquillizing

that dangerous province, while his gift for diplomacy was exercised fully in preventing friction between the turbulent population of the peninsula and the Germans, when the latter were steadily encroaching on their original holdings at Kiao Chow, on the north coast.

As a military man, Yuan showed his ability by the organization of troops that undoubtedly the best military force in China, and they were his troops that occupied Peking last summer, when the foreign forces were withdrawn. They are thoroughly disciplined and well officered, and considering the conservative nature of the Chinese, a magnificent display of Yuan's ability.

THE DEPUTY VICEROY.  
Wang Wen Shih, who is made deputy Viceroy of Chi Li, is also a man of marked ability. Fortunately, he has always been friendly to foreign ideas and is not a reactionist. He was one of the Grand Secretaries of State and is at present one of the two ministers appointed to form the new Chinese Foreign Office, which will replace the Tsung Li Yamen. Wang is a man of affairs, and was, himself, a member of the Tsung Li Yamen. He has been in the Manchurian treaty, and has been with the imperial court ever since it fled from Peking. The record shows that he has always exercised his influence in the direction of reform.

FRIEND OF EARL LI.  
[BY THE NEW ASSOCIATED PRESS.—A.M.] NEW YORK, Nov. 8.—[By Asiatic Cable.] One of the most intimate friends of Li Hung Chang in this country was Dr. Louis Seaman of this city. Dr. Seaman was formerly a surgeon in the United States army, serving in Porto Rico and the Philippines, spent considerable time in China during the war of 1898. He closed the army surgeon's career by the distinguished Chinaman, owing to a friendship between the doctor's father and Earl Li, at that time he was invited to accept the honorary title of the Viceroy's palace "for a year."

Speaking of the Earl's last illness, Dr. Seaman said: "When I said good-by to Earl Li last March I did not expect that he was so soon to leave his people. He was a very old man, and had been a sufferer from stomach trouble all his life. This was, perhaps, because he took little or no exercise."

"I do not believe that Earl Li would have died had Dr. Mark been in attendance at the usual time. He was an exceedingly able physician, but at the time of Li's death he was away with Prince Chan, who went to Japan to apologize to the Germans. Li, when left alone, rarely took any care of himself, and it was only by constant vigilance on the part of Dr. Mark that he was kept alive to the ripe old age that he reached."

In stating Li Hung Chang was a very old man, his physique was splendid, all except his legs, which were undeveloped and thin for want of exercise. Li's legs became atrophied from lack of use."

BRITISH ADMIRAL.  
[BY THE NEW ASSOCIATED PRESS.—A.M.] VICTORIA (B. C.), Nov. 8.—[By Asiatic Cable.] No one on this continent, outside of his own countrymen, knew Li Hung Chang better than the Lieutenant-Governor of British Columbia, Sir James Douglas. In 1898 when Earl Li visited this country on his way home to China, after a trip to the European states and to Great Britain, Sir James Douglas was then Canadian minister of revenue, was selected to represent the government, and to accompany the distinguished official statesman on his trip through this country.

"He was a most interesting man," said Sir James Douglas, "and one of the first things he said to me was that he was glad to be under the British flag. He was a great admirer of the British flag, and he paid him homage to the beauty of the Canadian women."

"Of Gladstone, with whom he had had several conferences, he spoke in terms of admiration. He said that I had seen a man who carried as far as he did the love of his fellow-countrymen. He was a man of great energy, of his race who settled in Canada, and the last thing he said as I bade him good-by, was 'I am recommending you to the British flag, and I am making me earnestly to take care of them.'"

"He made me stop the train, too, in the middle of the night so that he might give me a Chinese lady, who had married an Englishman, and who was settled in Ontario, an opportunity of seeing him, and he and his staff treated her with the greatest kindness."

DISLIKED IN GERMANY.  
[BY THE NEW ASSOCIATED PRESS.—A.M.] NEW YORK, Nov. 8.—[By Asiatic Cable.] Li Hung Chang, says the Berlin correspondent of the New York Times, long ceased to excite any interest in Germany. The public and the official world had discovered that they had been deceived by his promises. He was in 1896. Because of his title of Viceroy, Earl Li was treated with almost royal honors in Germany, which had been his dupes at the time of his visit in Ontario, an opportunity of seeing him, and he and his staff treated her with the greatest kindness."

RUSSIAN COMMENT.  
[BY THE NEW ASSOCIATED PRESS.—A.M.] ST. PETERSBURG, Nov. 8.—[By Asiatic Cable.] The newspapers here devote much space to the death of Li Hung Chang. The comments are invariably favorable, though the writers declare he was not such a friend of Russia as has been asserted abroad.

MANCHURIAN CONVENTION.  
[BY THE NEW ASSOCIATED PRESS.—A.M.] LONDON, Nov. 9.—[By Asiatic Cable.] The Hankow correspondent of the Times supplies what he alleges is a correct translation of the authentic text of the Manchurian convention proposed by Russia.

The convention stipulates for the gradual withdrawal of the Russian forces within three years, "provided no other rebellion occurs and the powers do not interfere." The number and stations of the Chinese garrisons must be settled, in concert with the Russian military authorities, and Russian agents must be obtained for any railroad construction in Southern Manchuria.

"No mention is made in the text sent by the Grand Council to the southern viceroys, of mining, commercial or other exclusive privileges," says the correspondent. "The convention contains other causes which the Grand Council is not willing to disclose."

MISS STONE'S RELEASE.**

**Bulgarian Authorities Cause Arrest of  
a Man Who Was Visiting Dickinson  
and Search Him—Difficulties in Way  
of Consul.**

[BY THE NEW ASSOCIATED PRESS.—A.M.] SOFIA, Nov. 8.—[By Asiatic Cable.] The government last night caused the arrest of a man who was visiting United States Consul-General Dickinson, and searched him, presumably thinking he was an emissary of the brigands, and hoping to seize a communication to or from Miss Ellen M. Stone. The man was subsequently released. This action of the authorities was seemingly a deliberate attempt to frighten delegates who might visit Mr. Dickinson, and thus prevent negotiations for the release of Miss Stone.

The attitude of the authorities has hampered Mr. Dickinson, as the brigands refuse to treat in Turkey. Mr. Dickinson, in reply to Miss Stone's letter, urged the brigands to further reduce their demands, and accept the amount subscribed, in view of the determination of the government to continue the search for the ransom, and the impossibility of collecting further subscriptions. It is believed the brigands will agree to this, as they are now beginning to feel their pocket, and want money for current expenses, such as bribery of officials, and the like.

The letter insists that the surrender of the prisoners must precede or be simultaneous with the payment, and leaves the question of the place open. A messenger last night brought a letter from Miss Stone to Mr. Dickinson, on the part of the capitalists, to the purchase of the road.

Under the agreement which the parties have entered into, Messrs. Heilman, Huntington and other have agreed to sell their shares at their par value, and to receive the price of their stock on the first of next March, when the Baltimore people will be ready to assume charge of the road.

"We did the best we could in the matter," said Henry E. Huntington, while discussing the deal, "but in the end we found that we would be unable to take care of all the stockholders. The Baltimore people wanted a railway, and we were in the road, and we finally agreed to sell them the quarters of the stock at par. Further than what has been published from time to time concerning this deal, I can add in the way of information regarding the matter."

As to the reported changes in the present management of the great railway, Huntington said he had heard nothing in that connection, and anything in that connection, he said, he did not think any important changes would be made by the incoming owners. As for himself, he said he would devote his attention to the management of the road, and would have no interest in the road.

EVERETT-MOORE INTERESTS.  
[BY THE NEW ASSOCIATED PRESS.—A.M.] NEW YORK, Nov. 8.—[By Asiatic Cable.] Representative of the Everett-Moore railway syndicate, W. E. Moore of the syndicate, is here to arrange for a mortgage of \$25,000,000 on all the Detroit and Michigan lines in the syndicate and to form a new company, consolidating all those lines. It is understood that a meeting will be held today in Wall street.

According to the New York Press, in addition to the Detroit scheme, a trolley deal is being made, and may yet be attempted in under way. It contemplates the absorption of roads which will place under one control a line from Cleveland to Columbus and Toledo, and possibly a line from Toledo to Columbus. It will include about four hundred and fifteen miles of road.

J. J. HILL WILL DOMINATE  
NEW NORTHERN CORPORATION.  
[BY THE NEW ASSOCIATED PRESS.—A.M.] NEW YORK, Nov. 8.—[By Asiatic Cable.] Post says:

"It is said today that so much progress has been made in the details of the settlement of the Northern Pacific and Burlington situation that it will not be necessary to hold many joint conferences. The length of time it took to settle the situation at the Union Pacific Railway directors' meeting this week the whole plan, as it affects that company's interests, was laid before the meeting, and it could not be learned today whether any official statement will be made."

"A large number of the reorganized board of directors of the Burlington Railway, probably a half, will report in a glass of water three times a day, taking digestion, stimulates the blood, tones up the heart and builds nerve tissue. It is food for body and brain; it keeps the old young, makes the young strong. There is none 'just as good' as Duffy's Pure Malt Whiskey. **RAILROADS.**

[CONTINUED FROM FIRST PAGE.]

Gen. T. L. Ford of this city, representing the Baltimore syndicate.

The terms of the deal are not definitely known. The deal states that \$25,000,000 in cash is to be paid for the property, and that the final papers will be signed today. It adds that the syndicate will expend at least \$4,000,000 in improvements on the property. The Examiner says that the agreed price per share is believed to be \$85. It states that the syndicate has deposited out of the agreement to buy, after sixty days, which will be allowed for a further examination of the property and books of the company.

"The plan embraces the retirement of the Northern Pacific preferred shares, this plan now being practicable through the turning over of the Northern Pacific holdings of the Union Pacific. It is believed that the Northern Pacific preferred shares will be retired by issue of a bond, although this is a detail in the new organization of the financial company which remains to be settled."

Camden, N. J., April 10, 1901. Gentlemen—Some years ago I used your Duffy's Pure Malt Whiskey for nervous dyspepsia with very beneficial results. It cured me completely and today my system gained forty pounds in a very short time, and felt vigorous and hearty.

Last winter I was taken with the grip in its severest form. I took Duffy's Pure Malt Whiskey, which my physician said was the only remedy to use to regain my strength. I began to mend at once, and in a few days health and strength were fully recovered. Words fail me in which to express my gratitude for this sterling remedy.

## THE PUBLIC SERVICE IN THE OFFICES AND COURTS.

## SUMMARY OF THE DAY.

Another hearing concerning the application of Caroline W. Dobbin for a permit to erect gasworks on St. John street was given by the Fire Commission yesterday. At the conclusion of the hearing, the matter was taken under advisement for one week.

The Board of Public Works has decided to change its report, and recommended to the Council that it change the name of the Bureau of Public Works from Bellevue avenue to the City Hall.

Twenty milk tests were made by Health Officer yesterday, and the results are in store for six restaurants and stores whose supply of milk falls far below standard.

The report of the library trustees on the circulation of the library for the year ending last September was given by the trustees yesterday. Testimony elicited from many witnesses, and it was hoped to close the evidence for the prosecution and defense today.

F. Kerner, charged with violating the harbor law, came to trial yesterday.

Violators of the milk ordinance were in heavy sentences in the Police Court yesterday.

## WITH WARD RESIDENTS OPPOSE NEW GASWORKS.

Full of Amusing Features and Practical Plans for Effect Given by the Fire Commission Yesterday, and Action Again Deferred.

The anti-gas war on tap for some time yesterday morning before the Fire Commission. No determination was reached regarding the application of Caroline W. Dobbin for a permit to erect gasworks on St. John street, in the Eighth Ward, and the action was postponed one week.

The hearing was strongly suggestive of that which took place in the case of the anti-gas war on tap for some time yesterday morning before the Fire Commission. No determination was reached regarding the application of Caroline W. Dobbin for a permit to erect gasworks on St. John street, in the Eighth Ward, and the action was postponed one week.

The hearing was a fearful and wonderful thing in its way. Testimony read from the year 1888 down to the present, and the case went to show that rents near a gas plant are on the decrease, and some of the residents of the neighborhood are on the increase. Testimony read from the year 1888 down to the present, and the case went to show that rents near a gas plant are on the decrease, and some of the residents of the neighborhood are on the increase.

Education from the Eighth Ward, closed the case for the prosecution. Reuben Lowery, of the Lawless Iron Works, Louis Hahn, Thaddeus Lowe, Jr., and others spoke for the defense. Reuben Smith, who built the works of the San Francisco Coke and Gas Company in the bay city, stated to the board that the new process of the coke is conveyed to storage holders in such a way that none of it is allowed to escape.

Hahn furnished considerable amusement to the spectators. When the gas company first proposed to locate the plant on the site, he and his company had an option on his property. He refused to answer, and one man accused him of being easily bought. No exciting developments followed this surprising accusation.

Reuben Lowery briefly stated that the manufacturers of the district are in favor of the plant, as it will guarantee cheap coke. Kuhn made his motion for a continuance, and the board adjourned.

The prosecution Attorney Morgan marshaled the expert witnesses and marched them into the Mayor's office, where they congratulated the chief executive on his brave stand for the rights of the common people.

## MINOR SPARKS.

Nothing was said about the appointment of an assistant chief of the fire department, although a long executive conference was held concerning the matter. It is known that members of the Council used their influence to prevent the board from considering the matter yesterday. While they thought the board would like to abolish the position, they have found that there are some difficulties in the way, and it is probable that the matter will be allowed to rest for a few weeks before any action is taken.

The board of the Imperial Refining and Asphalt Company filed with the board a petition to erect a refining plant on property bounded by E. 17th, S. 17th and Wilson streets. The Chief reported yesterday that the board has no jurisdiction, and Attorney A. C. Bates for the company withdrew the application. A large protest against the erection of the works was presented and filed.

Archibald H. McClure, who is desirous of erecting a general house-cleaning establishment, could not be found, the Chief could not find where he wishes to erect his plant, the matter went over for one week.

During the last week, the Chief reported that the board has no jurisdiction, and Attorney A. C. Bates for the company withdrew the application. A large protest against the erection of the works was presented and filed.

## NO CHANGE.

STILL BUENA VISTA STREET. If the report of the Board of Public Works is adopted on Monday, there will be no change in the name of Buena Vista street as asked by certain property owners on the street. The petition that the name of the street be changed to Broadway from Bellevue avenue to the river, was filed with the board yesterday. A vigorous protest was made against the proposed action by the board. Several hearings have been held, and yesterday the board decided to report against the proposed change. Chairman Bowen of the board was unable to be present.

Another inspection of the free hospital grounds will be made before the board meets. The Chief reported that the city grade the grounds and a road that leads to the site from the Sunset Boulevard entrance to Elysian Park.

The application of James C. Kays for a license to erect a gas plant on the Second and Third wards was taken under advisement pending an inspection by the commission.

## BELOW STANDARD.

MILKMAN "BUFFALOED." Since the Health Officer began his campaign against milkmen and vendors who sell the lactiferous fluid for drinking to consumers, results have been rapidly forthcoming. It is the belief of the authorities that the laws regulating the sale of milk are now in a condition where prosecutions can be obtained.

It is apparent that the heavy fines levied in the Police Court yesterday will have a salutary effect. When it became known that Oliver Olson, the New England dairy had been fined \$500, the maximum provided by ordinance, in one case, and \$100 in another, and that W. H. Martin was assessed for \$75 because of a violation, the milkmen began to take notice of the Health Officer. They all wanted copies of the ordinance relating to the sale of milk, and it is apparent that his provisions will be more closely observed in future.

While the milkmen have been having their day in court, the Health Officer and his assistants have been busy in providing a day of judgment for the milkmen. The officers have been placed on each side of the milk and milk depot, as they are covered by the ordinance as well as the milkmen.

Yesterday over twenty tests were made, and six were found below standard. In some cases the percentage of butter fat was as low as 1.5, whereas 3.4 per cent is required. Such milk is about all water and chalk.

Complaints have been made to the District Attorney, and if granted the restaurants will receive a lesson.

## Meeting to Celebrate.

This evening a mass meeting to celebrate the completion of the Arroyo de los Pinos storm drain will be held in the hall at No. 17 Aliso street. The committee on arrangements is composed of City Treasurer W. H. Workman, Joseph E. Brundage and N. W. Snyder. City Engineer Stafford, Street Superintendent McGuire and Councilman E. L. Bechard of the Ninth Ward, will be the guests of the occasion, and will speak. L. C. Hubbard, also a guest, is going to make an address. The Arroyo de los Pinos storm drain was recently completed at an expense of about \$10,000. It drains the water from the city to the river, and from the river to the Pacific Ocean. The drain is about 1,000 feet long, and is the largest of its kind in the city.

## Large Library Circulation.

For October the circulation of the library was the largest in its history. The number of books circulated was 66,919, as against 55,016 for October, 1900. The circulation for the month in the library is only 66,919. It will be seen that the circulation came within less than 200 of the number of books on hand. The total registration in the library is now 14,041.

Nothing was done at the board meeting yesterday relative to the new quarters for the library. The Chamber of Commerce Committee is still considering the proposition to purchase the rectory portions of the Constitution and the codes were read. W. J. Horgan, Esq., a member of the Board,

## MAY AGAINST WINTERS.

## WAS THE YOUNG HUSBAND CRUEL AND HEARTLESS?

## Numerous Spectators Set Their Curious Eyes on the Accused Wife Murderer, Who Never Wins—First Day's Long Testimony.

Spectators to the number of more than two hundred heard at least a part of the first day's testimony in the trial of J. Ross Winters, the young teamster who is on trial in the criminal court charged with murdering his wife. The crowd on the morning of May 11. The crowd yesterday comprised many women, and standing room was at a premium.

The defendant sat most of the day with his eyes closed and seldom moved. He often sighed deeply. On his right sat his brother, Charles Winters, and on his left sat his mother, Mrs. Winters. His aged parents were also in the courtroom.

An unusual amount of testimony was elicited, court convening at 9 o'clock in the morning and not adjourning until 10 o'clock in the afternoon. The evidence on both sides of the case, including the testimony of the defendant in his own behalf.

Joe Saunders, a very young man, was the first witness called by the prosecution. He stated that he lived at 1111 E. 17th street, and that he was a next-door neighbor of young Winters and his wife, and knew them well.

"I remember having seen them both on May 11—the fatal day—about 9 o'clock in the morning," said Saunders. "They drove up in a buggy, and did not know where they were going and did not notice that they had a gun. When did you next see them?" asked Deputy District Attorney McCormack.

"About 11 o'clock, as Winters was driving up in front of his own house. I could not see that anybody was with him."

"Did he say anything to you?" "Yes, sir. He asked me to go and hold the horse, and I went. He said, 'Did you do so?'"

"Did you see anything in the buggy at that time?" "Yes, I saw something in the bottom of the buggy, and I went to the house and looked at it. I didn't know what it was."

"What happened then?" "I went to the house and looked at it. I didn't know what it was."

"Not until after we were all in the house. Mr. Stoll and I carried in the body, and then Winters said: 'The shot herself—the gun went off and killed her.'"

"Did he say anything about where it happened?" "No, sir."

"Did you do with the body when you carried it to the house?" "We wrapped the lap robe about the body and carried it to the house."

"What was in the buggy beside the body?" "A gun, two boxes of cartridges, a pair of shoes, and a hat."

"Now that I think of it, however, I can't tell whether the gun case was in the trunk or in the buggy."

"What was done with the gun and the other stuff?" "The gun was taken to the house, and the other stuff was taken to the house."

"Well, I think a part of the shot at the end of the gun barrel, and the fourth rib was fractured by the impact on it at the wound, but Dr. Holland says no. Many questions were asked by the jury."

## WINTERS GOT A GUN.

D. M. Brockway, an employee of William H. Hoegge, a local dealer in sporting goods, testified that Winters came to him yesterday morning, and said he was going out hunting for rabbits. He said he was going out hunting for rabbits. He said he was going out hunting for rabbits. He said he was going out hunting for rabbits.

## SAUNDERS CROSSED.

At this point young Saunders was turned over to the cross-examination, which proved very interesting. "The next time I saw the gun was when I was in the house," said Saunders. "The next time I saw the gun was when I was in the house."

## STOLL'S PATHETIC STORY.

The next witness called by the state was H. Stoll, the doctor who helped Saunders carry the body of Mrs. Winters into the home on Workman street. He testified that he was called to the house on May 11, and that he was called to the house on May 11. He testified that he was called to the house on May 11, and that he was called to the house on May 11.

## COURSE OF THE SHOT.

Dr. J. F. Jenkins, who held the state's case, testified that he was called to the house on May 11, and that he was called to the house on May 11. He testified that he was called to the house on May 11, and that he was called to the house on May 11.

## LARGE LIBRARY CIRCULATION.

For October the circulation of the library was the largest in its history. The number of books circulated was 66,919, as against 55,016 for October, 1900. The circulation for the month in the library is only 66,919. It will be seen that the circulation came within less than 200 of the number of books on hand. The total registration in the library is now 14,041.

vis asked Dr. Jenkins if as a matter of fact the charge had not struck the body, and he answered that it had not struck the body, and he answered that it had not struck the body.

The testimony of witnesses for the defense, put on out of order to enable them to reach distant homes without delay. The witnesses were character witnesses. W. G. Potter, a Supervisor of Orange county, whose home is in Anaheim, said he had known Ross ever since the latter was a boy, and had never heard anything against him. To the same effect was the testimony of W. H. Kennedy of Chino, Orange county.

MYSTERIOUS KERCHIEF.

The first witness of the afternoon for the prosecution was Mrs. L. M. Prindle, who resides at No. 706 Sichel street in the neighborhood May the Winters home. Mrs. Prindle rushed to the scene soon after the arrival of the body, and she was the first to notice what seemed to be a pocket handkerchief sticking out from under the body. It was black with dried gore and presented a horrible sight.

"When I arrived," said Mrs. Prindle, "the body was lying in a pool of blood, and the handkerchief was sticking out of it. I saw the handkerchief sticking out of it."

"What was the demeanor of the husband all this time?" asked Deputy District Attorney McCormack.

"He was in another part of the house. What he was doing I don't know, but I would never have known he was there if I had not seen him from the doorway."

## BARBERS' UNION OUT AFTER A SCALP.

## HIRE TIGHT-WIRE ALLENDER TO PROSECUTE KERNER.

Out of Sixty Men, More Than Twenty-Admit Prejudice Against Organized Dictation—Heavy Fines for Violators of Pure-milk Ordinance.

J. P. Kerner, the man who stampered from the Barber's Union and has been selected for prosecution by that organization, came to trial in Justice Morgan's court yesterday, charged with employing an unlicensed barber.

Nearly all day was spent trying to select a jury, and no jury was selected after all. Out of sixty men questioned for the case, only twenty-five were found to be qualified to serve on a jury. The union held a special meeting night before last to consider means of fighting the case, and with the help of funds received from San Francisco, retained P. W. Allen, the tight-wire politician, to assist in the prosecution of Kerner.

It is claimed that the union is paying the fare of one of Kerner's former employees down from Riverside, and his full wages, to testify in the case against Kerner.

Kerner is defended by Messrs. Shinn and Thompson.

## THE CONNECTION.

As means of the going out of Joseph, and how the children of Israel were delivered from Egypt and back to their own home.

While after the death of Joseph, his brothers and his father-in-law, Jacob, were in Egypt, the children of Israel were in Egypt. They were in Egypt, and they were in Egypt. They were in Egypt, and they were in Egypt.

And all that generation. And the children of Israel were in Egypt, and they were in Egypt. They were in Egypt, and they were in Egypt.

They made phenomenal growth. We do not know the exact length of time, because we may not know where they were, but they were in Egypt, and they were in Egypt.

They were in Egypt, and they were in Egypt. They were in Egypt, and they were in Egypt. They were in Egypt, and they were in Egypt.

## THE LESSON.

Now these are the names of the children of Israel who came to Egypt with Jacob: Reuben, Simeon, Levi, and Judah; Dan, Naphtali, Gad, Asher; Issachar, Zebulun, Joseph, and Benjamin; and all that generation.

## SECOND JURY WAS THE MORE LENIENT.

### VERDICT OF SIMPLE ASSAULT RENDERED AT SAN BERNARDINO.

William Ellis, Once Convicted of Felony, Escapes the Penitentiary—Miss Mary Frances Boxall Becomes the Bride of Horace Little of Ontario.

**SAN BERNARDINO, Nov. 8.**—[From The Times' Correspondent.] William Ellis, charged with assault with intent to commit murder, was tried before a jury of six men in the Department One of the Superior Court. He was sentenced Monday. The case went to the jury late in the afternoon, and two hours later a verdict was reached. Ellis' second trial. At a first trial, he was convicted, but a new trial was granted on account of a legal technicality. Ellis is a colored man, who came here from the penitentiary, where he was sentenced to life for a crime committed in the state of California. He was arrested here on a charge of assault on an old man named Bierson, while both men were locked up for drunkenness. He has been in jail eight months.

**BOXALL-LITTLE.**  
Horace Little of Ontario, and Miss Mary Frances Boxall were united in marriage at noon yesterday at St. John's Episcopal church, Rev. M. C. Dotson of Riverside officiating. The interior of the church was handsomely decorated with carnations and roses, ferns and palms. Westwood H. Collins of Riverside, William L. Boxall of Santa Monica and Frederick W. Lloyd of San Francisco were the ushers, and the Misses Margaret and Nesta Boxall, the bridesmaids. Herbert E. Collins of San Diego acted as best man. The bride, exquisitely attired, entered the church leaning on the arm of her father, William Boxall. An elaborate wedding breakfast, prepared by chef from San Francisco, followed at the Lloyd residence on South Mill street. Mr. and Mrs. Little left on an afternoon train for San Francisco. They will make their residence in Ontario, where Mr. Little owns extensive lemon groves.

**SAN BERNARDINO BREVITIES.**

**THE OIL INDUSTRY.**  
**HOT-AIR PUMPING NOT ALL HOT AIR.**

**NEW METHOD FAVORABLY REGARDED BY THE OIL MEN.**

Operators Warned to Keep Waste Out of Kern River—Big Set to Prospect Field Near Denning—News from Whittier.

Considerable interest is manifested among local oil men in the report, published in this column yesterday, that hot air had been used with success in the Kern River field in forcing oil wells to flow.

The new method, which was first tried by L. W. Goff, of the Golden Rod, on the oil of the south end of the Kern River field, is decidedly original and it is shown under a thorough test, it will prove a great boon for fields where oil is heavy.

In the northwestern extension of the local field, in Sunset and the southern end of the Kern River field, there is much oil to be developed that is exceedingly rich in asphalt properties, but the greatest problem that the operators have to contend with is in the method of bringing it to the surface.

Jewett & Blodgett of the Sunset field have used with success a boiling system in developing the oil, but a similar plant installed on the property of the La Brea Rancho and Asphalt Company in the local field was only partially satisfactory. The boilers would bring the oil to the surface, but as the oil was very heavy much time was required.

The local company is installing a compressed air line in the report, published in this column yesterday, that hot air had been used with success in the Kern River field in forcing oil wells to flow.

**WARNING TO OPERATORS.**  
Local and other companies operating in the Kern River field have been notified

piece of ground known as the Methodist Church property, build a City Hall and issue bonds for the payment of the same. It appears that opposition to such a scheme is quite strong. A prominent citizen said today: "I questionably this would add to the beauty of the city, but I think before the city makes an outlay of this kind, which will increase taxes, she had better consider her own water rights, and thus giving the residents the benefit of cheaper water rates. After this is done, it will be time enough to think of buying more property and building a city hall."

**REDLANDS BREVITIES.**  
"Although every effort is being made to get a suitable secretary for the Y.M.C.A., to succeed J. L. **SANTA ANA.**  
**ACQUITTED OF MURDER.**

**SANTA ANA, Nov. 8.**—[From The Times' Resident Correspondent.] The jury in the case of Alton D. Sprout, charged with the murder of Fred Lutz, returned a verdict of "not guilty" after only a few minutes deliberation. Sprout admitted that he had struck the blow with a knife that resulted in the death of Lutz, but claimed that it was done in self-defense. The evidence throughout the trial showed plainly that Lutz was drawn into the quarrel by the machinations of one Clyde Mack, who was considerably under the influence of liquor at the time and who first started the quarrel with Sprout. Mack was drawn into the quarrel by the machinations of one Clyde Mack, who was considerably under the influence of liquor at the time and who first started the quarrel with Sprout. A. H. Carvath returned today from Escondido, where he has been the guest of friends.

Mr. and Mrs. Ed. Mosbach of Redlands, who have been the guest of friends.

**WHITTIER DOINGS.**  
WHITTIER, Nov. 8.—[From The Times' Resident Correspondent.] Development work that will undoubtedly have a tendency to renew interest in the eastern extension of the Whittier field is that now being done by the New England Oil Company, which is prospecting for oil on a large tract of land near the town of Whittier.

Last year the company put down a hole, which brought to light good oil, but the well was abandoned because of the expense of drilling.

A record hole that was started last year is now at depth of 1700 feet, the last 100 in the oil sand. The finishing of a good well by the New England Oil Company, which is prospecting for oil on a large tract of land near the town of Whittier.

The first of the week the drillers lost a hole, but the well was abandoned because of the expense of drilling.

A "bucket" was recovered, after a couple of days' fishing. It was found to be nearly full of oil sand.

The Whittier Oil Company has obtained a permit from the City Council to lay a three-inch pipe line from its wells to the southern Pacific siding, where a 1000-barrel tank will be located. The company's No. 1 well is being deepened. It now down nearly 1600 feet and will soon be put on the pump. Well No. 5 is down 1400 feet and will soon be put on the pump. The work on well No. 4, which is down about 1200 feet, is being prosecuted by quicksand. The well on the Harris ranch is progressing, and indications are excellent. The rig at Graciosa, Camalia, the Muscio and Underhill ranches are working constantly. It is expected that most of these wells will produce in thirty days.

**WHAT IT PRODUCES.**  
The Pacific Slope Oil Company, of the northwestern field, has signed up with the Oil Storage and Transportation Company, and for a period of two years it is expected to produce a market for the product. The company is producing between 1100 and 1400 barrels a month, and not 4000, as reported.

SANTA MARIA, Nov. 8.—[From The Times' Resident Correspondent.] Each train brings visitors and oil promoters, who are attracted by the Western Union Company's great producer.

One company is considering the possibility of prospecting for oil in the center of the valley.

Among the newcomers are D. B. Kennedy, who is looking for a suitable location, with view of sinking a well.

E. K. Worland, representing Minneapolis, was much impressed with the field. He was much impressed with the field. He was much impressed with the field.

The D. M. Osborn company, represented by W. K. Hortman, will commence operations in a few days.

The Pacific Slope Oil Company, of the northwestern field, has signed up with the Oil Storage and Transportation Company, and for a period of two years it is expected to produce a market for the product.

The company is producing between 1100 and 1400 barrels a month, and not 4000, as reported.

# YOUNG WOMANHOOD.

## How Often it is Made Miserable by the Lack of Proper Advice at Just the Right Time.

This picture tells its own story of sisterly affection. The older girl, just budding into womanhood, has suffered greatly with those irregularities and menstrual difficulties which sap the life of so many young women.

Lydia E. Pinkham's Vegetable Compound can always be relied upon to restore health to women who thus suffer. It is a sovereign cure for the worst forms of female complaints, bearing down feeling, weak back, falling and displacement of the womb, inflammation of the ovaries and all troubles of the uterus or womb. It dissolves and expels tumors from the uterus in the early stage of development and checks any tendency to cancerous humors. It subdues excitability, nervous prostration, and tones up the entire female system.

Mrs. Pinkham especially invites young girls to write her about their sickness. She has made thousands of young sufferers happy.

Two young women authorize us to publish the following letters.

"DEAR MR. PINKHAM:—I cannot praise Lydia E. Pinkham's Vegetable Compound enough. It is simply wonderful the change your medicine has made in me. Before I took your medicine I could hardly stand the pain in my back. I tried different doctors but none did me any good. I took three bottles and feel like another person. My work is now pleasant before it was a burden. To-day I am a well and happy girl. I think if more women would use your Vegetable Compound there would be less suffering in the world."—Miss MATHILDA J. LAGASSE, 828 9th St., New Orleans, La. (Dec. 30, 1900.)

"DEAR MR. PINKHAM:—I suffered for several months with pains in my back and sides. I felt weak and weary. I tried many different medicines, but nothing seemed to do me any good until I began taking Lydia E. Pinkham's Vegetable Compound. After taking several bottles, I feel entirely well. My improvement was simply wonderful. Thanking you for the benefit I have derived from your medicine."—(Jan. 15, 1901.) I am sincerely yours, FANNIE CLIFTON, La Due, Mo."

Do not be persuaded that any other medicine is just as good. Any doctor who suggests something else has no interest in your case. He is seeking a larger profit.

Follow the record of this medicine and remember that these thousands of cures of women whose letters are constantly printed in this paper were not brought about by "something else," but by Lydia E. Pinkham's Vegetable Compound.

Owing to the fact that some clerical persons have from time to time questioned the genuineness of the testimonials letters we are content by placing on each bottle of the National City Bank of Lynn, Mass., \$1.00, which will be paid to any person who can prove to the satisfaction of the National City Bank of Lynn, Mass., that the letters are genuine, or were published without the written permission of Lydia E. Pinkham Medicine Company, Lynn, Mass.

**\$5000 REWARD**  
G. G. Johnson, a real estate dealer, who resides at No. 823 South Gower street, has reported to the police that his house was visited by burglars within the last week, while the family was at one of the beaches. A hat rack, several portieres and some pictures are missing.

It is believed by the police that this job is the work of the same person who has recently been visiting other furnished houses and stealing rugs, carpets, etc.

Mrs. C. Purcell of No. 240 North Broadway, reported to the police yesterday that some one endeavored to enter her house at 1:40 o'clock in the morning. The supposed burglar was frightened away when Mr. Purcell blew a whistle.

The suggestions of the celebrated Dr. Potch-egill and other noted food experts regarding the use of malt in connection with cereals have been practically and successfully carried out by the manufacturers of Malt Breakfast Food. This food is a happy combination of pure health-giving malt and the choicest strength-yielding wheat, the whole partially cooked and predigested, producing a breakfast dish of unequalled value for muscle building and bone forming. Experts affirm that Malt Breakfast Food is the only cereal that contains all the great food elements in just the proportion needed for perfect nutrition. The manufacturers guarantee Malt Breakfast Food to be the richest in flavor, the most appealing, the most satisfying, and the most easily-digested food in the world. Your grocer sells it and recommends it.
